FREDDIE WEEKS TO FIGHT HEFRON

Freddie Weeks, of Colorado and Tonopah, and Martin Hefron, of New York, have been matched under the management of Jake Goodfriend, for a twenty-round contest to be fought Saturday, December 12, in Goldfield. The forfeit money of each of the fighters has been deposited with Harry Coffee and Hefron has been training faithfully for the past week in preparation for the contest. The fight has been looked forward to by the followers of each of the principals. The fact that Weeks has already fought Abe Attell, the top-notch in his class, and that Hefron is one of the most promising youngsters, places the contest on a par with any lightweight contest ever held in the country.

GRAND JURY IN SESSION TODAY

The grand jury will meet this morning and will immediately start investigations in the case of Fred Newton, who is charged with murder and had the former indictment returned by this grand jury quashed in the district court. The consensus of opinion among the legal fraternity is that the jury will return the same indictment that was formerly returned by them.

BLUE LIGHT TO INSTALL HOIST

MINA (Nev.), Nov. 26.—A new 100-horsepower hoist has been ordered for the Blue Light Copper company and will shortly be installed. At present a depth of 700 feet has been attained, but as soon as the new hoist is installed it is the intention of the management to sink to the water level, where it is firmly believed that the great bodies of ore found on the surface will be found in place. Superintendent Chalmers, assisted by Foreman Frank Baker, one of the best mining men in the state, is in charge of the development of the property. Regular shipments of ore are now being made. When the ore bodies are picked up on the water level it is the intention of the company to install a large treating plant on the ground.

AFTER THE RAILROAD IN EARNEST

A Federal Attorney Arrives at
Reno to Prosecute in the
"Odd Section" Frauds

RENO, Nov. 26.—After more than three years of agitation over the alleged fraudulent patents obtained by the Central Pacific railway company, the first case brought by the government to restore to the miners the vast acreage of mineral lands deemed to have been wrongfully secured by the company is about to go to trial.

Frank Hall, special assistant to the United States attorney general, arrived in Reno yesterday and is preparing to commence taking testimony in the Ingalls, or Olinghouse case and expects to begin examining witnesses by about January 1.

The Olinghouse case has been in the hands of the government for the past three years and was subjected to the greatest scrutiny and examinations by government officials before suit was commenced by Attorney General Bonaparte against the railway company. The astounding disclosures through the investigations made by the special agents of the department of justice and brought to light by J. Aaron Ingalls and his attorneys, opened the present extensive examination into mineral land titles of the railroad into Nevada.

The Ingalls case is the pioneer of the various suits brought by Uncle Sam to cancel any fraudulent railway patent to mineral lands and will determine in a large measure the rights of prospectors and miners on the now famous "odd sections."

CROWD HEARD FIGHT RETURNS AT NEVADA CLUB

The returns of the Papke-Ketchel fight were received yesterday at the Nevada Club by J. Grant Crumley, and were listened to by a large number of fight enthusiasts. The sympathy for the fighters seemed to be with Ketchel, and when he received the decision there was a wild hurrah. There was very little money changed hands in Tonopah on the result of the fight.

SOME RECENT HARDSCRABBLE DEVELOPMENTS

A. J. Poak came in last evening from the Hardscrabble mountains, where he is operating a lease, and states that the condition of the camp is excellent. Several leases are working, and in the shaft of Lindsay and Cleals they have just found the vein, which was lost some time ago. The find was made at a distance of about thirty feet from where it disappeared and this has aroused considerable enthusiasm among the workers there. Several new parties are contemplating leases and inside of thirty days it is estimated that there will be at least a dozen parties actively engaged in developing property.

A wagon load of supplies left yesterday morning for the new camp in the Hardscrabble mountains. The supplies are sent out by Roche and Cereghino, who have recently secured a lease there, and will immediately start operations. They have a thorough outfit and everything that is needed to expedite the work of developing, and the supplies are estimated to last several months.
